Despite the popularity of the Harley-Davidson Sportster Harley-Davidson Sportster Hop-Up & Customizing Guide Published on Apr 27, 2019 There are probably more Sportsters on the street than any other model of Harley-Davidson. Despite the popularity of the Harley-Davidson Sportster, there are no current guides to help owners with a hop-up or customizing project. This new book from Wolfgang includes two, start-to-finish customizing sequences, along with hands-on examples of engine hop-ups. The Harley- Davidson Sportster Hop-Up and Customizing Guide is a perfectly put together, how to guide, for every restorer and beginner who would like to work on this bike. The Sportster has been in existence since 1957. The Sportster was originally built in 1957, as an answer to the British bikes produced, that were lighter and easier to handle.
