Koldwave Literature Search. Download Our Spot Cooling Manufacturer Information. As a leading spot cooling manufacturer, Koldwave has the experience and breadth of products to ensure you have the right temporary air-conditioning solution for your business fleet or job-specific application. EST. 2009 Your journey to endless design possibilities. KompacPlus brings the balance between sustainability and aesthetics. These innovatively designed panels are crafted with precision and built to outlast a lifetime – making it the material of choice for those who seek the ideal aesthetic experience. The KBi BLOCKOR Fitting is the heart of a DIESELMATIC System. A BLOCKOR controls the flow rate of starting fluid being injected into the engine and is also responsible for vaporizing the fluid in the most efficient manner possible.
