Remove the airbox and you'll find a dipstick. If it's low then you're either leaking or burning. Also check to see if the fluids are in good condition. I just dropped a few drops of fluid on a white napkin and inspected the color. If it's red it's still good. (I believe red is the Mazda automatic transmission fluid color. Maybe double check on that). The video above shows how to fix minor transmission fluid leaks in a 2008 Mazda 3. If you have automatic transmission problems in your 3, ie: it hesitates when shifting gears or seems sluggish shifting from one gear to the next (1st to 2nd gear, 2nd to 3rd gear, 3rd to 4th gear, etc.) check your transmission fluid level first.
