

# Download Sources Of Power How People Make Decisions

Sources of Power is without a doubt one of the finest works on decision making. A must for anyone responsible for training command and control personnel. A must for anyone responsible for training command and control personnel. Sources of Power is the kind of work that should be required reading for anyone who has to deal with people on a daily basis. Since almost all of us deal with people making decisions daily, that means almost all of us should read this book. Sources of Power: How People Make Decisions NDM and Macrocognition. Explainable Artificial Intelligence. Constraints in technological change. PhD thesis on its final stages; The strengths and limitations of teams for detecting problems. A Recognition Primed Decision (RPD) Model of Rapid Decision ... Sources of Power is an exploration of what Klein calls naturalistic decision making. Rather than studying novices performing artificial tasks in the laboratory, naturalistic decision making involves the study of experienced decision makers performing realistic tasks.
